PREFACE.

The publishers of the Buffalo Directory for 1896 present the volume to their patrons believing that they will find improvements in it commensurate with the growth of the population, industries and wealth of the community. Nothing which has hitherto been a good feature of the work has been neglected, while much has been added to make it a complete guide and book of reference for the residents of the city as well as to the strangers within its gates.

The increased volume of the work indicates the growth of the city. The Directory for this year contains 109,000 names. Multiplying the number of names by $3\frac{1}{4}$ gives a result of 354,250, which may be accepted as a very conservative and almost accurate estimate of the present population of the city.

But population is not everything. A city of 350,000 Hottentots would not be one to boast of. Buffalo can show that her population is worth something to the civilization and happiness of mankind. Good citizenship and good works in a community rest on a basis of commercial prosperity. Let us look at Buffalo as a center of trade and manufactures.

The city is a great railway center. Twenty-six railway corporations have an entrance to the town. They own 3,600 or more acres of land within the city limits. Every day between 250 and 300 passenger trains arrive at and depart from the five city railway stations. The freight traffic centering at Buffalo is enormous. Every year more than 100,000 carloads of cattle and more than 400,000 carloads of coal arrive in Buffalo for distribution. The grain and lumber receipts by rail are prodigious, and for the local handling of this traffic there are about 700 miles of tracks within the city limits.

The position of the city at the foot of Lake Erie and the western terminus of the Erie Canal give it other great advantages as a transshipping point between the East and the West. To show how vast is the grain, coal and lumber business of the port, statistics of the Board of Trade for a series of years are appended. First, however, it may be of interest to glance at the totals of the carrying trade between this port and others on the Great Lakes. They are as follows :

LAKE TRADE OF THE PORT.

Comparative Receipts by Lake.

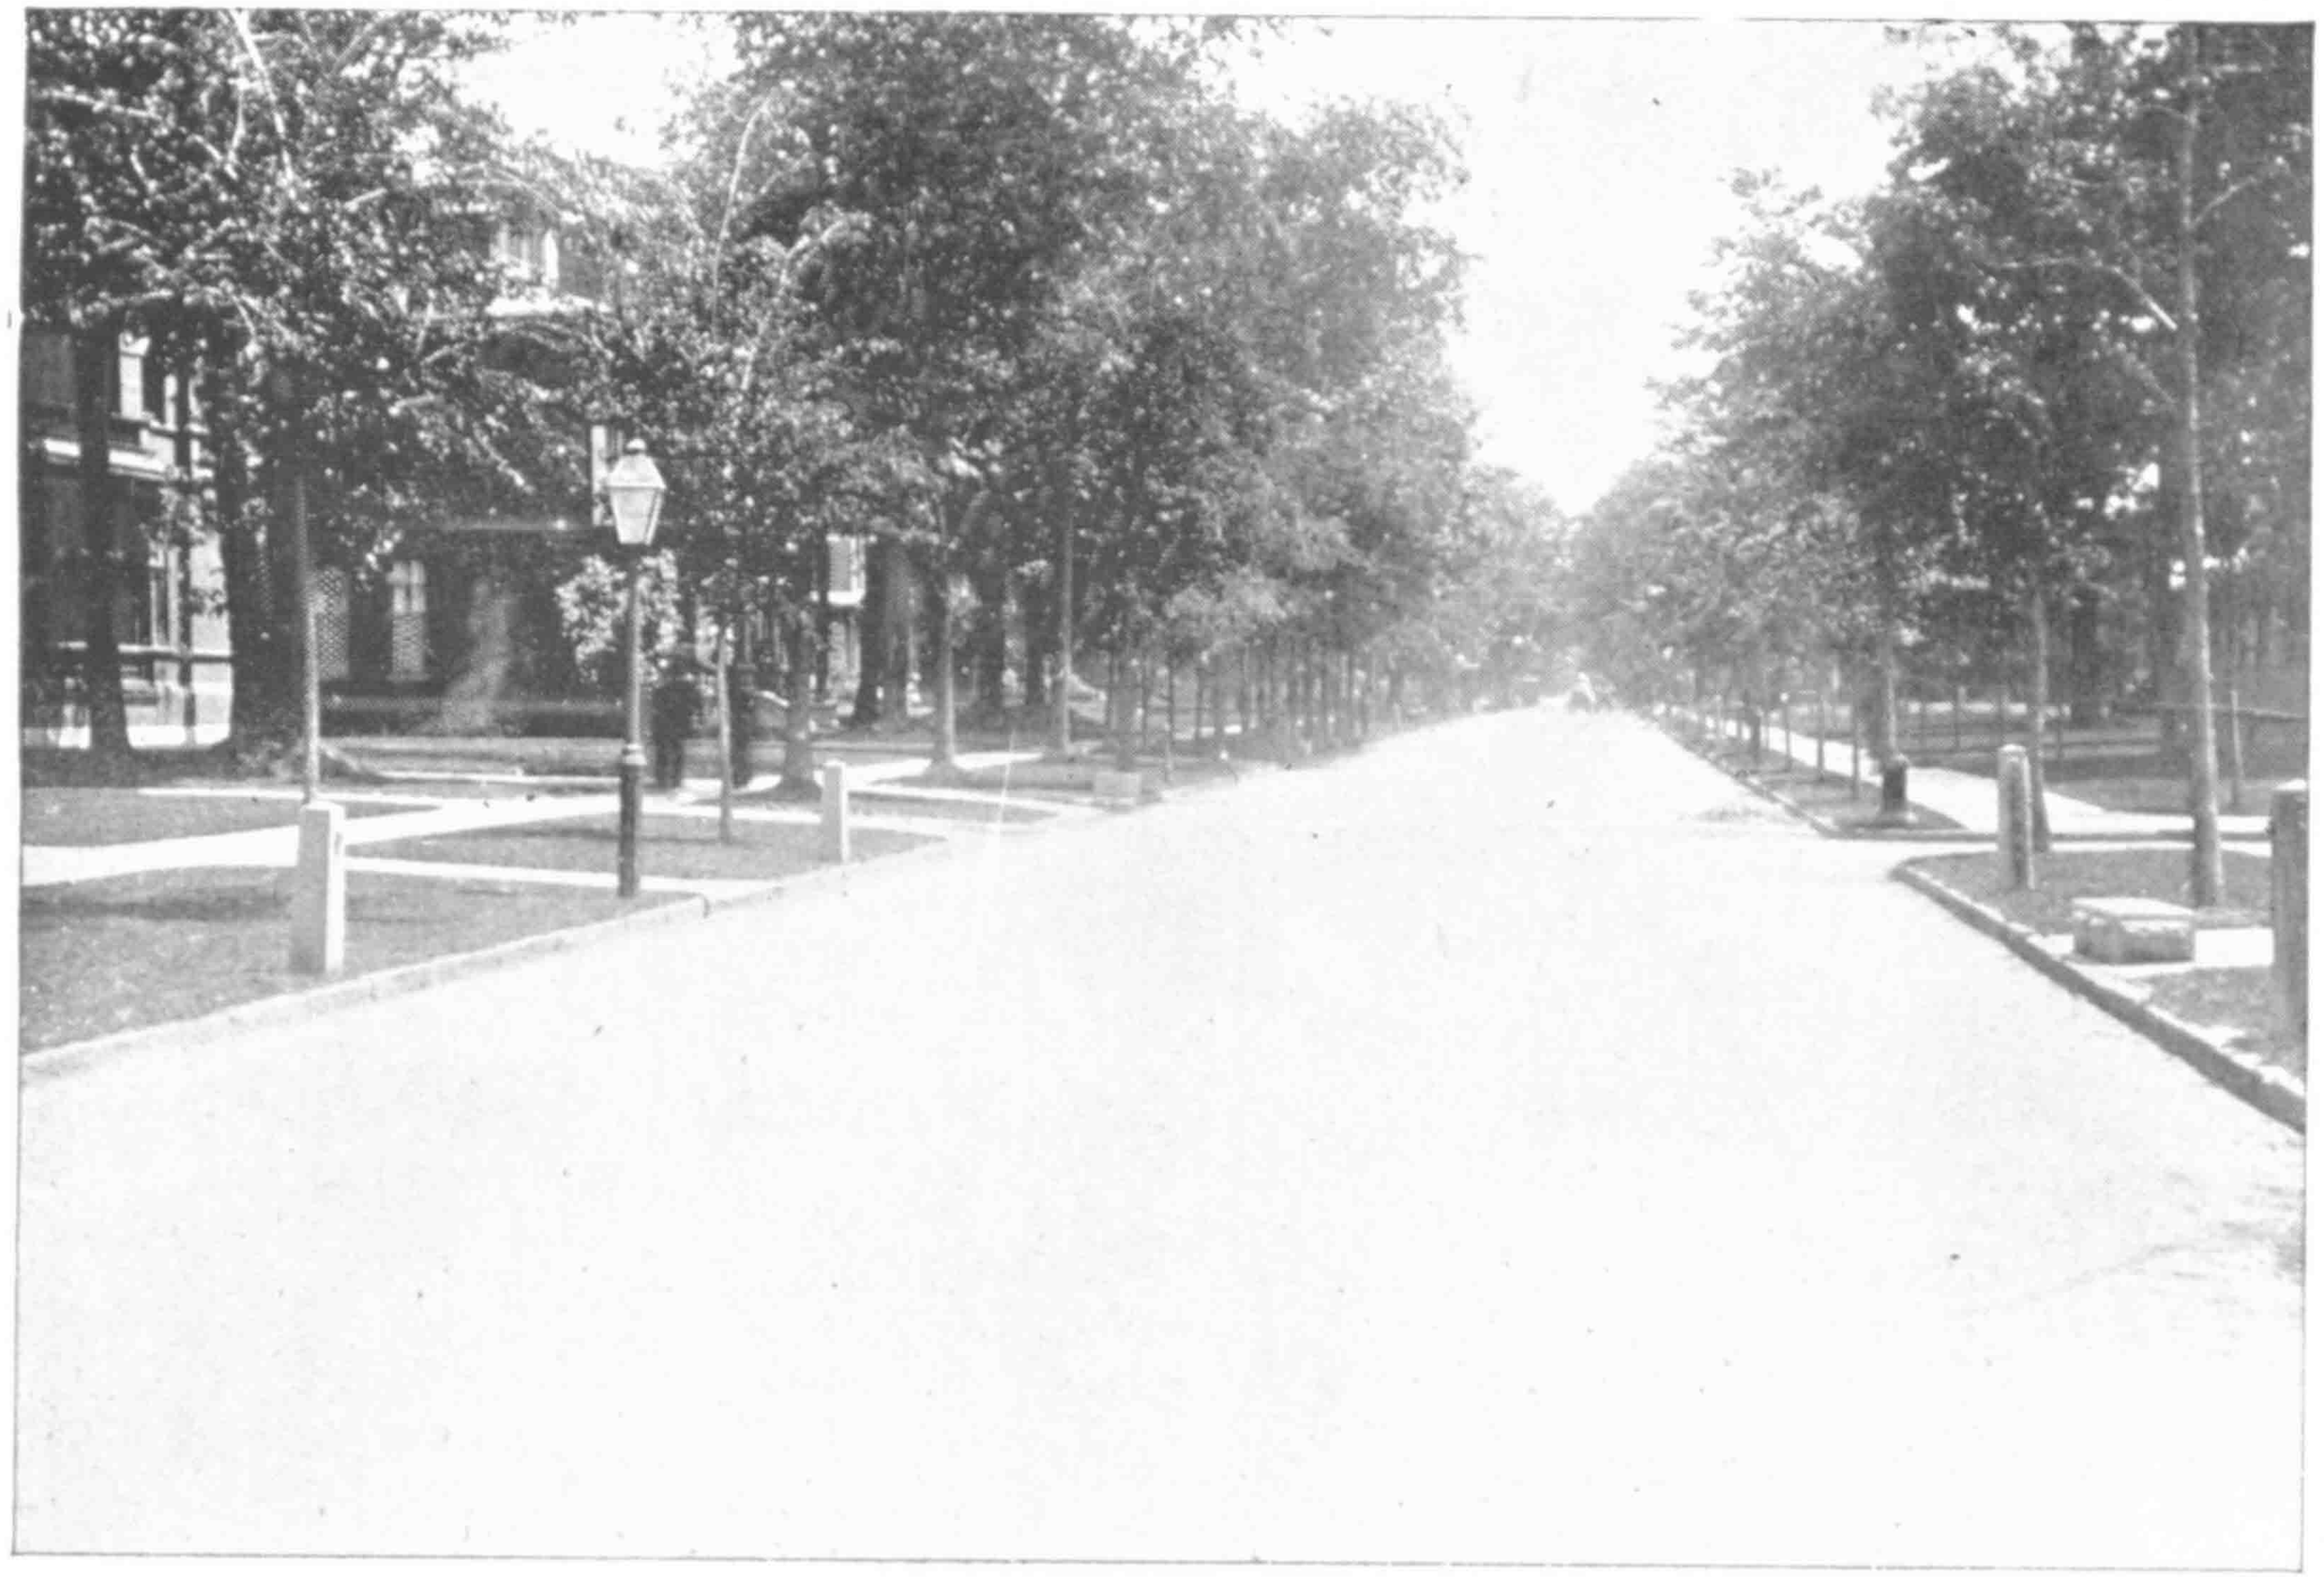
GRAIN TRADE.

To the grain trade from the West to the seaboard Buffalo owes in a very large measure the beginnings of its wealth, and the record of its growth here set forth is most interesting, showing the receipts, transfers and shipments almost since the infancy of the city :

Receipts of Flour and Grain.



Thc accompanying tables show the statistics of the Grain trade at this port ; first, receipts by lake and rates of freight on grain ; second, shipments by canal with rates of freight, elevating charges, etc. :

Transfer Elevators—Hefford's, Chicago, Fulton, Horton, Merchants', Northwest, Western Transit.

Floating Elevators—Cyclone, Buffalo, Free Canal, Free Trade, Ira Y. Munn, Empire, Ryan, and Dispatch.

The International, Lake Shore, and Queen City houses are used for handling rail grain only, having no facilities for receiving direct from vessels.

The elevators named above have capacity for elevating about 250,000 bushels per hour, or 6,000,000 bushels per day of 24 hours.

Of the above list, the Connecting Terminal, Bennett, Niagara B, Dakota, Eastern, Wilkeson, Evans, Coatsworth, and Marine each have two legs. The Terminal, Eastern, and Bennett each have one portable leg, which enables them to work in two hatches of any vessel at the same time. The City B also has a portable leg, which can be worked in connection with the stationary leg of City A.

ELEVATING AND STORAGE RATES.

All of the elevators named above, receiving grain from vessels, belong to the Western Elevating Company, whose charges for elevating and storage were as follows for the year 1895:

Elevating, receiving, weighing, and delivering, ⅝c per bushel; storage first 10 days or part thereof, ¼c; no grain received for direct transfer, the vessel paying only the actual cost of shoveling. The charge for loading cars was ¼c per bushel, including trimming.

WINTER STORAGE.

Winter storage began November 10, 1895, and applies only on "identity preserved" grain. After November 10, 1895, for each 10 days or part thereof, ¼c per bushel until such charge, accumulated after November 10 on grain stored before that date or accumulated after the first 10 days on grain received in store on or after November 10, shall amount to 2c per bushel; then free until five days after the opening of canal navigation in 1896.

RATES ON CAR GRAIN.

The Niagara, International, Lake Shore, Queen City, Exchange, and Ontario elevators made charges as follows: Elevating from cars, including shoveling and storage 10 days, ½c per bushel; storage each succeeding 10 days or part thereof, ¼c; delivering to side bins, ¼c; delivering to cars and switching to Eastern roads, ¼c; blowing and cleaning, ¼c; grading and cleaning, 1c; separating and cleaning, 2c; running over and cooling, ¼c; storing hot or damaged grain, commencing three days after same has been posted, ⅛c per bushel per day.

GRAIN TRADE—ERIE CANAL.

Canal Freights from Buffalo to New York.

The following gives the rates of freight on wheat and corn in cents per bushel from Buffalo to New York, via Erie Canal, during the season of 1895, the dates showing when the changes occurred:

COAL TRADE.

It is estimated that nearly half a million car-loads of coal come to Buffalo as an exchange and distributing point every year. One coal trestle in the city, that of the Delaware, Lackawanna & Western Railway, is a mile in length—the largest in the world, it is said.

RECEIPTS AND SHIPMENTS.

The receipts and shipments of coal in net tons at Buffalo by lake and canal for the years 1895, 1894, 1893, and 1892 were as follows :

LUMBER TRADE.

During the past fifteen years the lumbermen have made Buffalo and her little suburban port of Tonawanda the largest lumber market in the world. The combined lumber receipts of Buffalo and Tonawanda last year (1895), if cut into boards twelve inches wide and an inch thick, would reach from the earth nearly to the moon. The bulk of Tonawanda's lumber interest is owned by Buffalo men. The statistics which follow indicate the vastness of the business:

TONNAGE OF THE PORT.

The tonnage of vessels documented at Buffalo at the end of 1895 was greater than ever before. The total was 184,109.37 gross tons, against 177,991.75 gross tons the year before. The total tonnage of vessels built and enrolled at this port during 1895 is 805.54. The tonnage of vessels enrolled but not built here during the year was 5,384.87 gross tons—a slight decrease compared with 1894. Complete tables showing the entries and clearances of vessels during the year follow:

THE LIVE STOCK TRADE.

It is said that the trade in live stock at Buffalo amounts in a year to 100,000 carloads. The number of animals now handled yearly—cattle, horses, sheep and hogs—is about nine millions, almost double the number handled in 1883. Buffalo is the second largest live-stock market in the world, it is also the second largest cattle and hog market, the largest sheep market and one of the largest horse and mule markets. Some interesting computations that linger in the mind have been made concerning the traffic of the city. If all the live stock received in one year at Buffalo were placed in a solid procession ten abreast they would extend for 1,600 miles. The daily receipts would make a procession about five miles long and ten abreast. The following statistics are condensed from the annual report of Mr. Charles H. Webster on the Live Stock Trade of Buffalo for 1895 :

The receipts for the year 1895 were as follows :

Month.	Cattle, cars.	Hogs, cars.	Sheep, cars.	Horses, cars.
January	3,077	3,556	1,762	372
February	2,802	2,260	1,586	393

December	2,378	3,173	1,842	201
Total	36,175	27,644	16,114	4,831

The shipments for the year 1895 were as follows :

Month.	Cattle, cars.	Hogs, cars.	Sheep, cars.	Horses, cars.
January	2,755	2,657	1,139	337
February	2,420	1,819	1,141	353

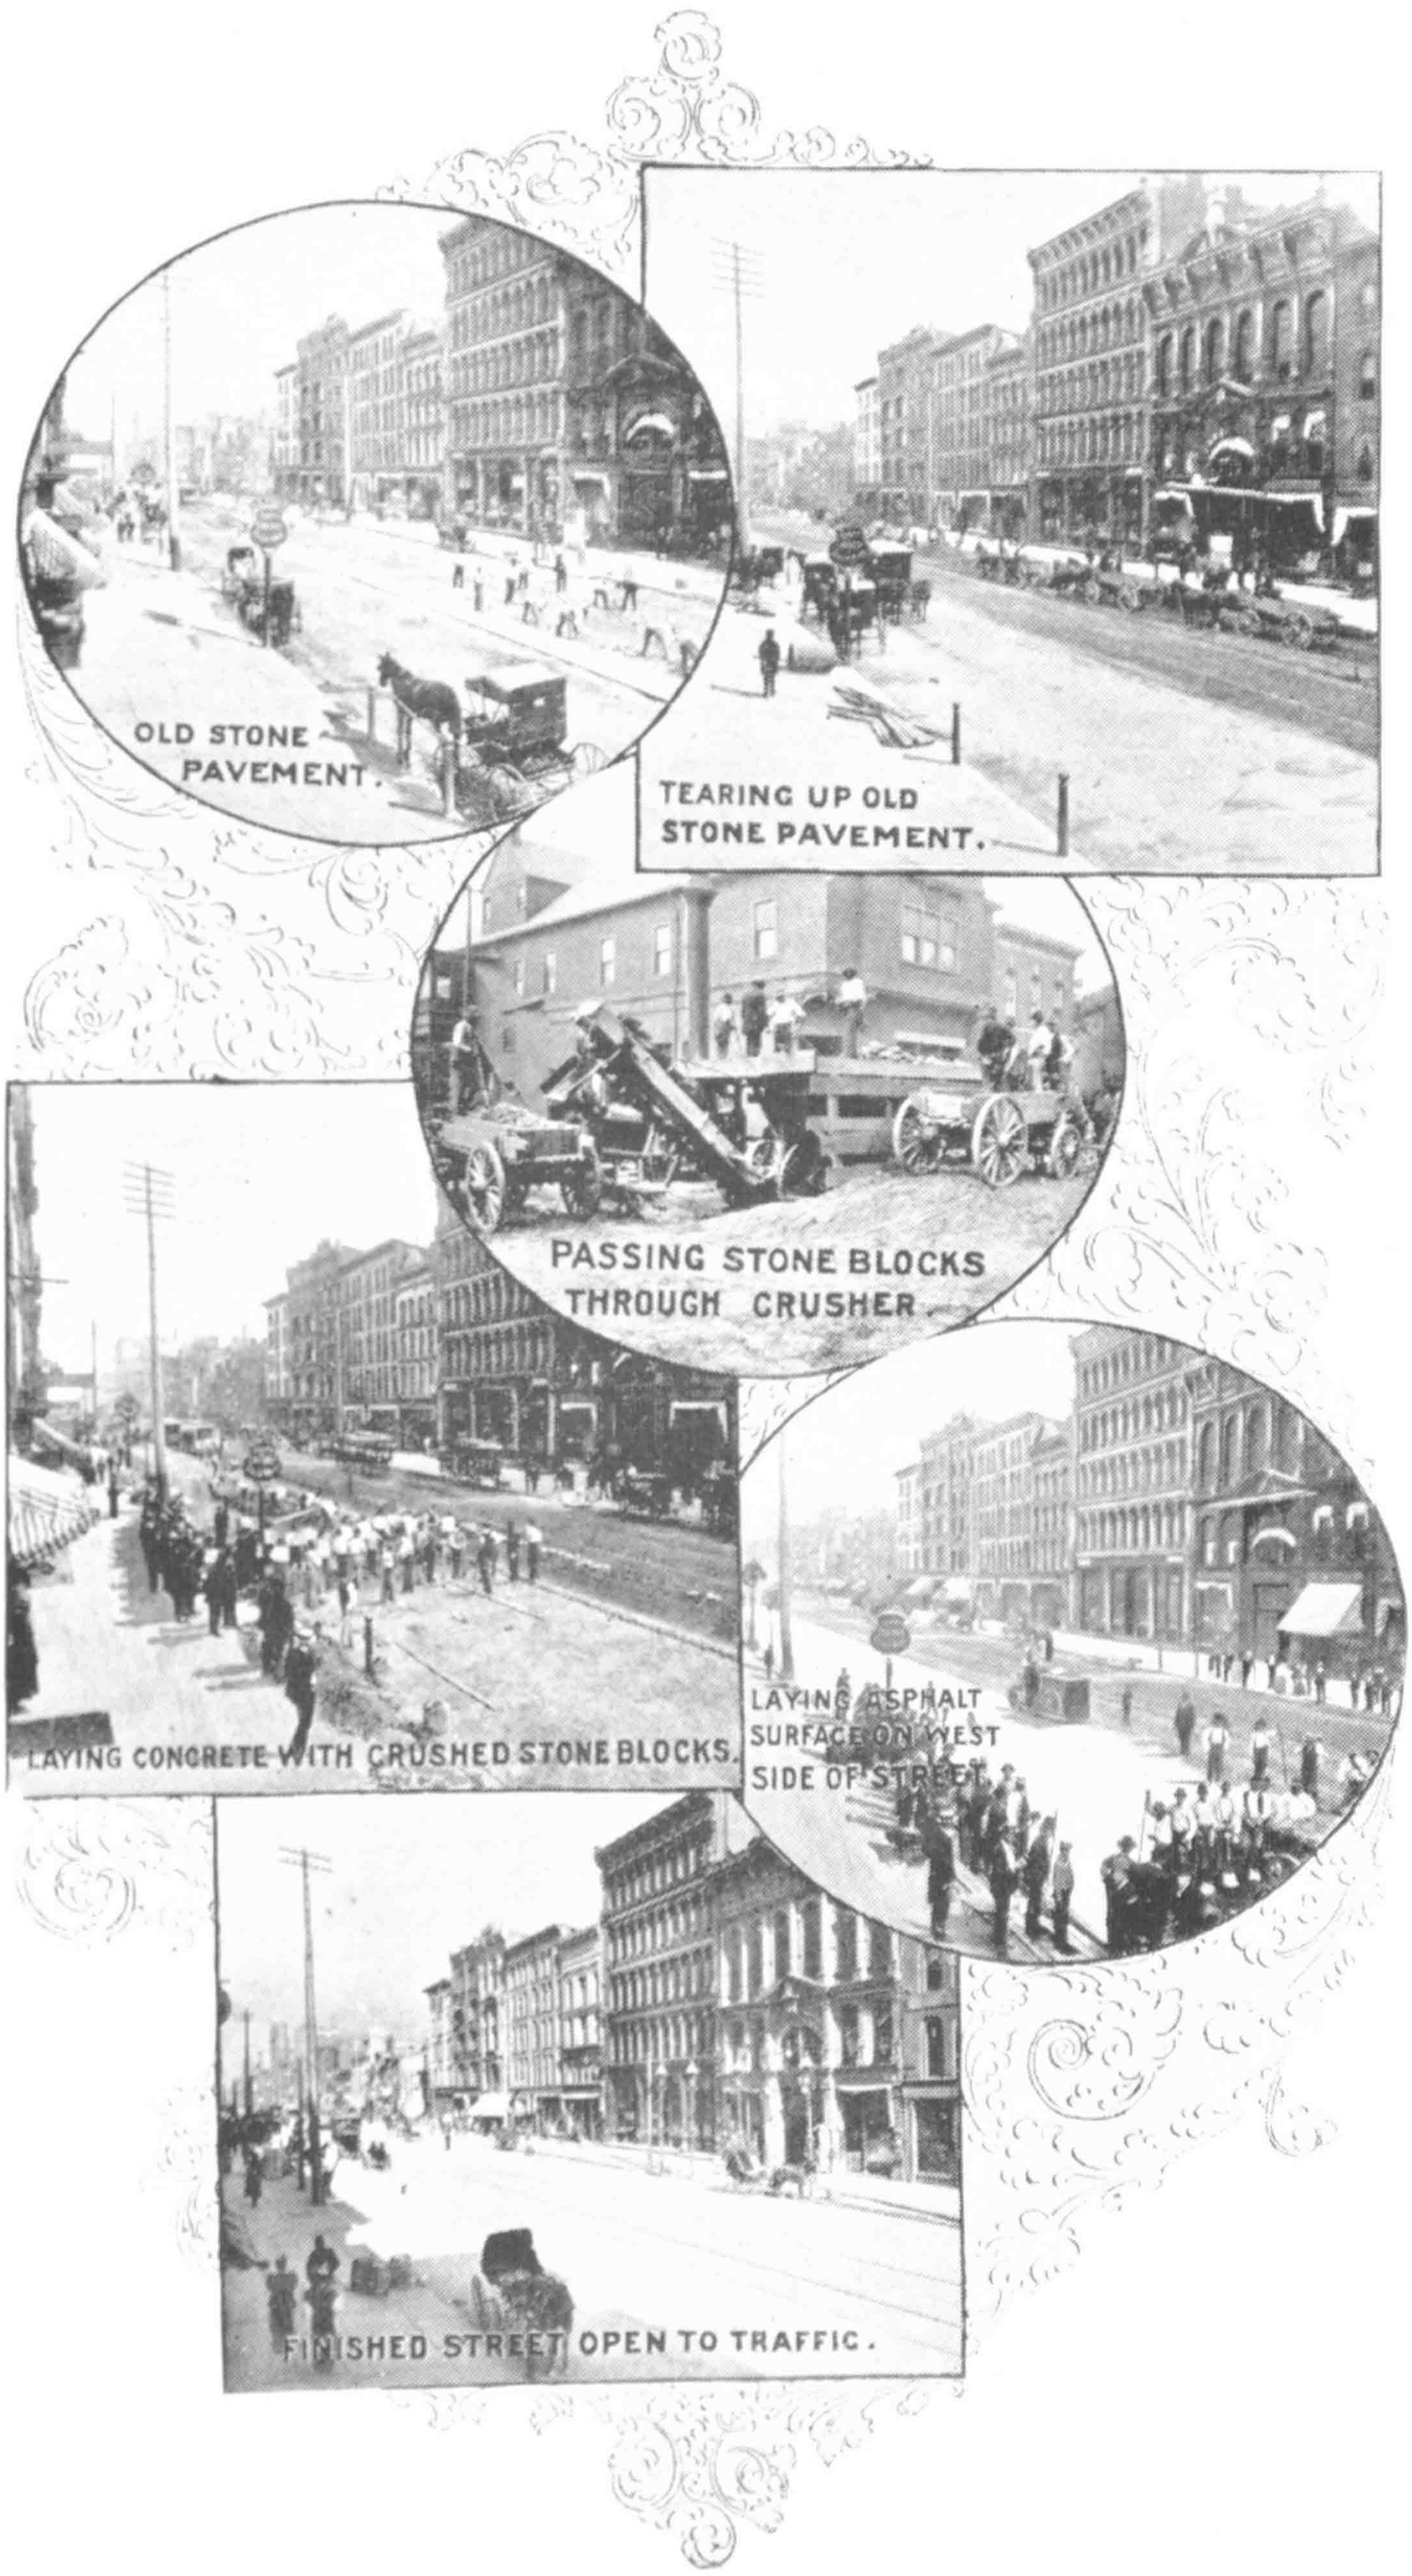
December	2,974	2,198	1,302	183
	32,935	17,684	10,909	4,262

The number of head of cattle, hogs and sheep slaughtered in the year 1895, estimated from the most reliable sources, was cattle, 69,080 head; hogs, 1,437,120 head; sheep, 1,041,000 head.

The number of carloads of through and sale stock received at the New York Central Stock Yards for the year 1895 was, of the former, 10,082 cars of cattle, 12 983 cars of swine, 11,750 cars of sheep; of the latter, 15,969 cars of cattle, 2,202 cars of swine and 1,167 cars of sheep.

THE HORSE MARKET.



While there are more bicycles ridden in Buffalo in proportion to population than in any other city of the world, the noble horse is not forgotten. The business at the great horse markets in East Buffalo increases remarkably from year to year. Towards the close of 1895 a commission house engaged to supply four of the largest 'bus and cab companies in London with 6,000 horses, to be shipped during the present year. This, and other contracts entered into abroad by this firm, represent purchases of $1,000,000 or more. The average annual increase of business at the Buffalo horse market is 100 per cent. The breeding of fine horses is carried on very extensively in one or two villages near Buffalo, principally at East Aurora, some of the most famous race-horses in the world having been bred and broken there. In the autumn of 1895 the Austrian Government sent agents here to buy horses for royal and cavalry use, and large purchases were made.

BUFFALO AS A RESIDENCE CITY.

For desirability of residence no city in the United States offers more attractions than Buffalo. These are of two kinds—those which climate and nature have provided, and those others which the citizens have introduced.

In the first place, the climate of Buffalo is so fine that its average mortality is lower than that of any other city of its size in the world. Last year the rate of mortality was a fraction over 13 per 1,000 of population. What Buffalo's weather usually is may be gathered from the following extract from the report of the weather for 1895, made by the Meteorological Committee of the Merchants' Exchange:

The mean temperature was 46 degrees, being the normal for Buffalo. The highest during the year was 93 degrees, on June 4th, and the lowest, 13 degrees below zero, on the 6th of February, making the extreme yearly range but 106 degrees, being greatly in excess of the average temperature range at Buffalo, which has the most uniform range of any northern city in the country. The winter months were colder than the average, and the winter was one of the most prolonged known in this section. The spring was early and the month of June a record breaker for heat; and the entire spring very dry, as also the summer and fall, and the year was one of the driest in the history of Buffalo, and on account of lack of moisture the temperature was quite uniform, the summer being quite cool and pleasant and the fall warm, but combined, the average temperature was normal. The year's rainfall was 32.02 inches, or 6 inches below normal. The prevailing winds were west. The total number of miles from this direction was 35 per cent., or one-third of the total movement of 99,602 miles, being nearly 1,000 miles less than in 1894. The highest velocity was 78 miles from the west on December 31st (1894). There were 74 cloudless, 161 partly cloudy and 130 cloudy days during the year; also 135 days with

precipitation equaling or exceeding one-hundredth of an inch. The summer of 1895 was, as usual at Buffalo, most pleasant, and for which this city is noted; day after day followed each other with fair weather and no excessive heat. In July and August 26 fair days occurred in each month, and during September 24 fair days were recorded, being a total of 76 fair days out of a possible 92 days, with a remarkable uniformity of temperature, the highest being 90 degrees and the lowest 38 degrees for three summer months.

Buffalo winters are usually marked by clear, cold weather, rather resembling the exhilarating cold of the northwest than the chilling, enervating, damp cold of the seaboard towns. Two straight months of sleighing and skating are not uncommon. Buffalo abounds in beautiful shade trees, and is almost as greatly blessed in that regard as any New England town. Added to this, she lies in the midst of a garden country which has large harvests of the most delicious strawberries, peaches, grapes and apples. All kinds of garden and orchard produce are sold at lower prices than obtain in any market either to the east or west. The same is true, too, of meats and fish. The vast quantities of stock brought here provide our butchers with an abundance of the choicest beef, mutton and pork, and our lake and river swarm with edible fish.

Another natural advantage is that of the city's situation—within less than an hour's ride to Niagara Falls and the sublime scenery of the lower river. Near at hand along the lake shore are fine beaches, which are thronged during the summer with pleasure seekers from the town. Inland, less than twenty miles away, are ranges of bold hills, among which are grand ravines and pleasant valleys, in which suburban villages are growing rapidly. Nature, indeed, has surrounded the town with every kind of attraction, though here and there the hand of man is needed to give nature a proper sense of beauty.

PAVEMENTS.

Nothing indicates the position and status of a city more clearly than the condition of its thoroughfares. If its streets are smoothly paved and cleanly swept it is evident at a glance that the city is prosperous and its affairs well managed. On the other hand if its pavements are rough, noisy and out of repair, and the streets are filled with rubbish and filth, then every one can see that either the town is financially impoverished or its funds are wasted by bad management. Hence, in recent years the subject of pavements has been carefully studied by municipal officers and taxpayers. It is now generally conceded that the best kind of pavement yet devised is the asphalt pavement. Cobblestones have been discarded as a relic of barbarism. Granite blocks are not thought of except in a few business streets devoted exclusively to heavy trucking, and when

subjected to this heavy traffic their edges and joints soon become so worn that the pavement is no better than cobblestones. Macadam is always either muddy or dusty, according to the amount of water put on it by rain or sprinkling. Wood is lacking in durability, and is objectionable on sanitary grounds, as it absorbs moisture and filth and its own vegetable fibre soon decays. Brick is used in villages and small towns, but whenever subjected to a traffic of a large city it grinds to powder; and the glassy, vitrified brick is dangerously slippery. Asphalt is the only kind of pavement that combines durability with smoothness and safety for horses.

The asphalt pavement as now laid in the United States was introduced twenty years ago by a commission of Government Engineers, who were charged with the paving of Pennsylvania Avenue, from the Capitol to the Treasury, in the city of Washington. The Act of Congress which defined their duties directed them simply to lay "the best known pavement." They selected asphalt, and the result has amply justified their decision. The pavement possessed such evident merit that in a few years it spread to other localities, and it has now been laid in upwards of 90 cities in the United States and Canada, and to an extent of about 20,000,000 square yards, or 4,000 acres. On a street twenty-six feet wide it would have a length of over 1,400 miles, or more than from New York to New Orleans.

For twenty years prior to the introduction of asphalt in America, an inferior kind of asphalt had been used in European cities, and is still used there to a limited extent. This is the bituminous limestone rock, which being composed of limestone as fine as flour, takes a high polish under traffic and becomes excessively slippery. The pavement as laid in America is composed of sand and asphalt, forming an artificial sandstone, which cannot polish and is free from the objection of slipperiness. The total amount of the bituminous limestone pavement in all the cities of Europe is between 3,000,000 and 4,000,000 yards, whereas the amount of asphalt laid *annually* for several years past in the cities of America is about 2,500,000 yards.

Of the 3,724,500 yards of asphalt pavement now in use in Buffalo, the Barber Asphalt Paving Company has laid 2,958,994 yards, and the exact location of every piece can be readily identified and examined at any time. This company was the pioneer in the business, and although as the industry grew and spread many competitors have come into the business, yet this company is still the oldest, largest and best equipped company engaged in this class of work. Its long and varied experience with pavements laid under every variety of climate and traffic, its combination of practical knowledge on the street, with extensive scientific

LOADING TRAIN WITH ASPHALT ON PITCH LAKE, TRINIDAD, FOR USE BY THE BARBER ASPHALT PAVING CO.

research in the laboratory, and its thoroughly trained and skilled experts, enable it to construct pavements to meet any given conditions, with a certainty of success which cannot be expected from the smaller companies which have recently come into the business and are lacking in experience and skill.

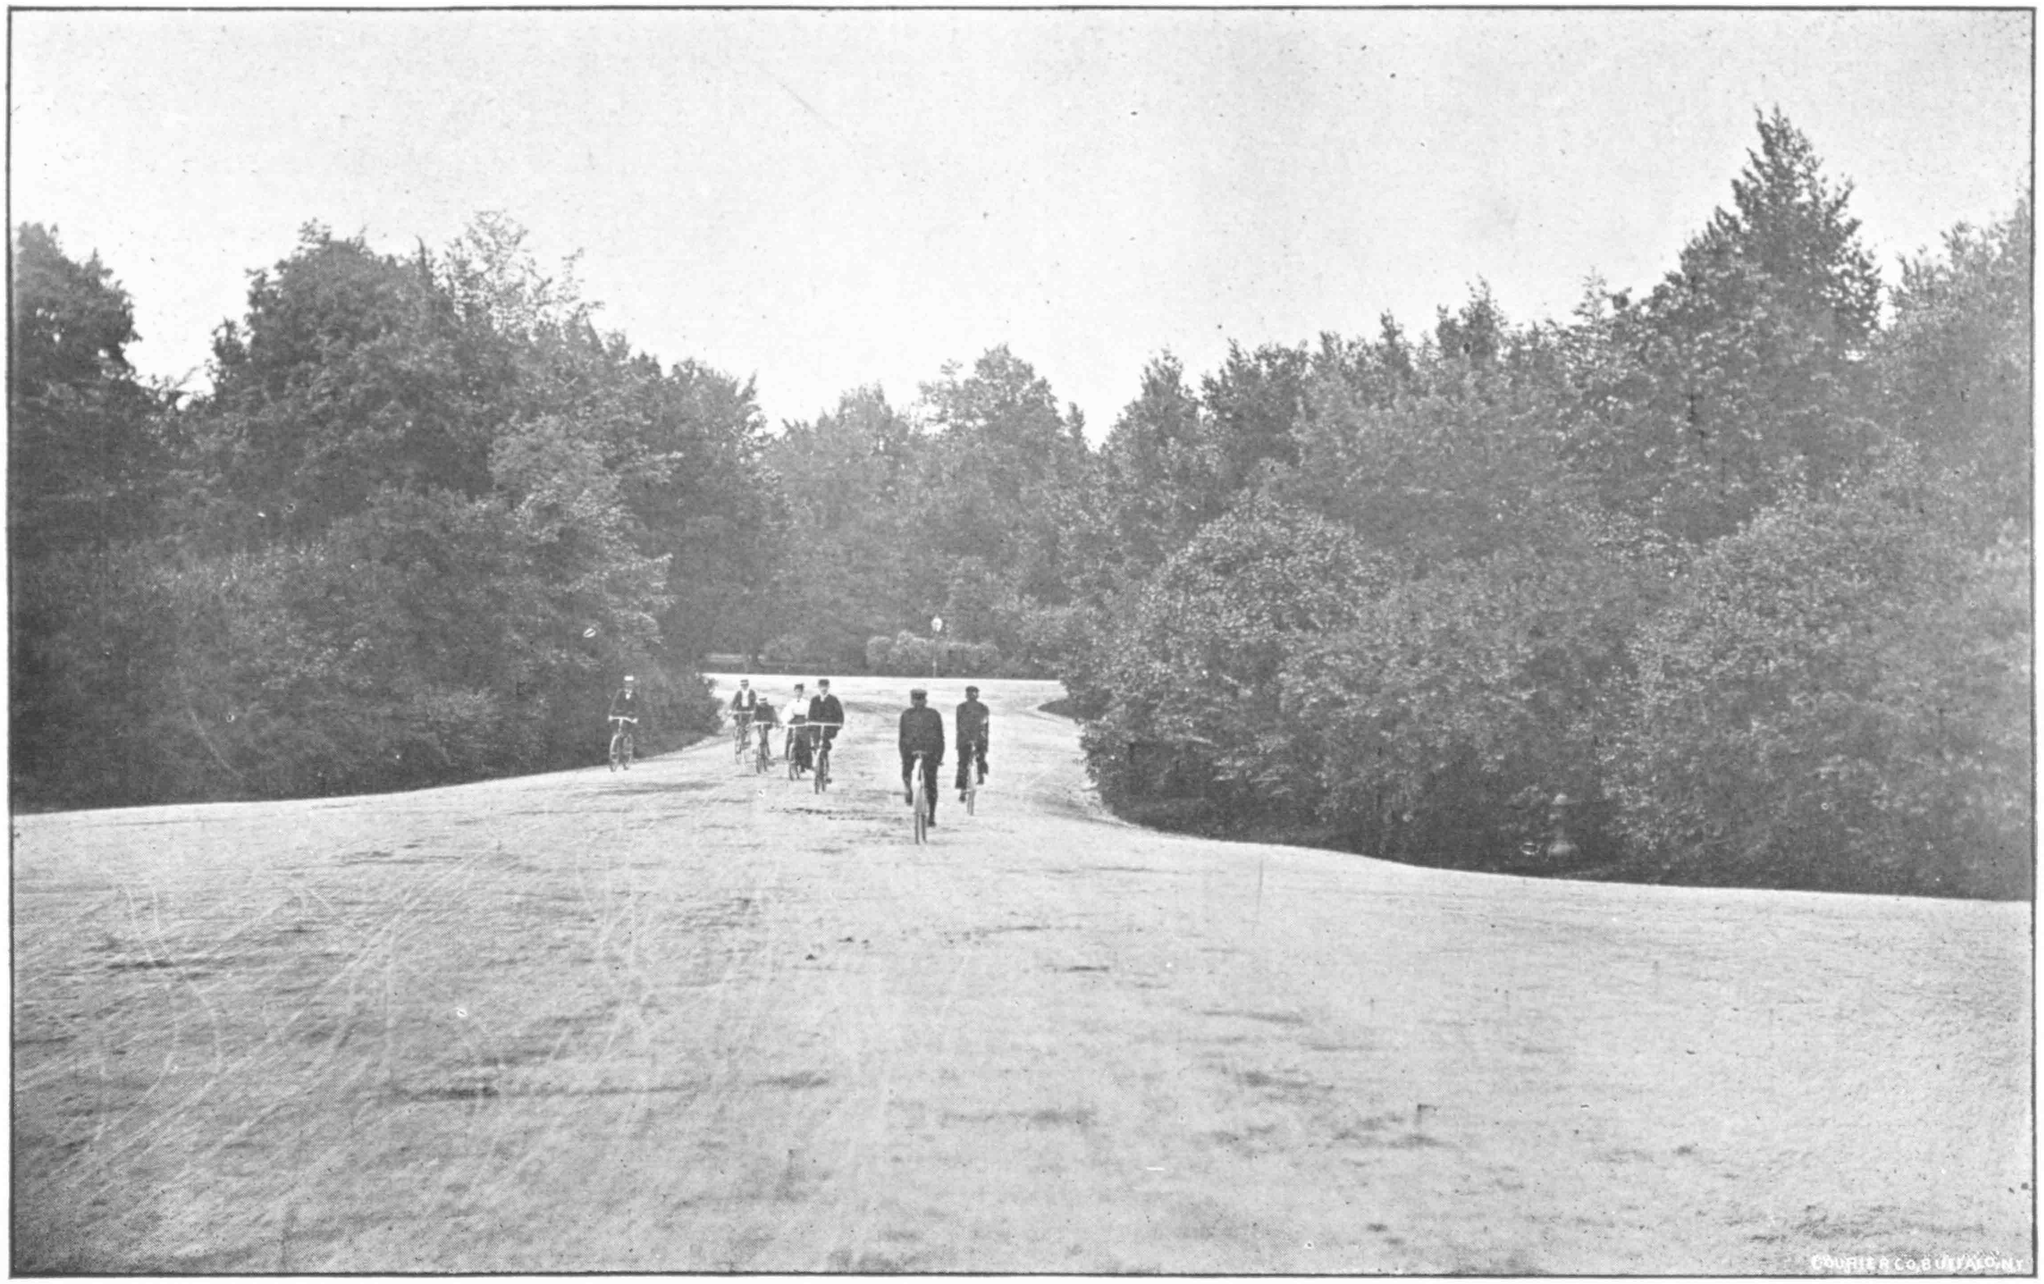
The Barber Asphalt Paving Company always uses the asphalt obtained from the celebrated asphalt lake in the Island of Trinidad, in the British West Indies. The supply of this material is practically inexhaustible, so that it can always be obtained in any quantity desired on short notice, and those companies which use it are thus in position to undertake contracts of any magnitude. It is, moreover, remarkably uniform in quality, possessing a homogeneity which is not found in other asphalt deposits. It also has the ductility, tenacity, and cementitious qualities which are essential in making a durable pavement. Many other asphalts have recently been put on the market, and of them it is sufficient to say that the pavements made of them belong to one of two classes, viz.: those which have been paved more than five years and have proved so lacking in durability that they are failures, and those which have been laid but a few months, or at most two or three years and are not yet old enough to judge of their merits, being still in the experimental stage.

City officials are very properly required in most cases to award public contracts to the lowest responsible bidder, but they invariably have a discretion vested in them to draw their specifications so as to reject the use of inferior and untried materials, so that the taxpayers' money may not be wasted in failures and experiments. A pavement apparently cheap in first cost may prove enormously expensive in repairs and maintenance. The construction of asphalt pavements is peculiarly an industry requiring technical skill and experience, and the test of success is its use during a term of years. City authorities, in the exercise of their discretion in drawing specifications, can follow no better guide than the result of years of actual use, and they can only avoid the risk of failure and the expense of experiment by adopting materials which have stood the test of from ten to twenty years of constant use, and by awarding contracts to responsible and experienced companies which have never defaulted in their obligations.

THE STREET RAILWAYS.

There are 150 miles of street railway in the City of Buffalo. The Buffalo Railway Company, which operates it, is composed of capitalists in Buffalo, Philadelphia, New York and other leading cities, whose names are themselves potent factors in the world of finance.

This company operates about 550 cars, employs 1,800 men, and uses for its motive power electricity alone. There is not now a single street car drawn by horses within the 42 square miles of Buffalo. The most perfect transfer system in the world is used here. A single fare of five cents is charged, carrying with it the privilege of transferring in any one continuous direction, over any number of lines, an advantage which may be, and often is, taken advantage of, so that a passenger with five cents can travel between ten and twelve miles, from one city line to the other. Cars are heated by electricity, represent a very good average of rapid transit, run on most lines all night, and on all lines at very frequent intervals.



Besides these inter-urban lines, trolley railways connect the city with its near neighbor, Tonawanda, having three companies operating different routes, and one operating cars running at 15-minute intervals to Niagara Falls; another joins Buffalo by electric pathway with the New York Central Railway's manufacturing City of Depew, close to the city's eastern boundary; another connects the south side with Ebenezer and Gardenville, and still another will soon be opened to join the Bailey avenue line with Blasdell and Hamburg.

PUBLIC BUILDINGS.

During the last three or four years many of the ancient blocks of buildings in the heart of the city have given place to the new-fashioned sky-scraper of steel, stone and terra cotta. A great deal of the capital that has been put into these structures has come from the conservative investors of Boston, New York and Chicago. The greatest of these new edifices is the Ellicott Square Building, which occupies one square block in the best business section of the city, and which is the finest, most complete and handsomest office building in America. The value of the site is estimated at $1,000,000, and the building, now completed, to have cost $2,350,000. Outside capital has built most of this.

The White Building, the first of the fire-proof office buildings erected in the city, was so well designed that it will always be a pleasing structure to the eye, and its interior arrangements are so excellent that it never wants tenants.

The Board of Trade Building on Seneca Street is principally occupied by grain merchants, commission men, insurance firms and brokers. So great has been the demand for offices that an additional story has lately been added to the building.

AN ENTRANCE TO THE PARK.

The new Builders' Exchange is a handsome addition to the public edifices of the city and occupies a prominent corner. The offices are largely occupied by real estate men, but lawyers and other professional men are quartered there in large numbers.

The most solid and enduring pile in the city, and the one occupying the finest situation, is the Erie County Savings Bank Building, occupying a triangular block facing Main Street. The walls are of solid granite, the design of the building is fine and imposing, and gives the idea that it will stand as long as the city endures.

There is also the handsome new Morgan Building, built by outside capital; the Guaranty Building, erected by Chicago men; the Real Estate Exchange Building, representing local investment solely, the Mooney-Brisbane Building, and many others of lesser magnitude.

The United States Government, in 1894, purchased the entire square bounded by Ellicott, Oak, Swan and South Division streets, on which in the near future work will be begun on a new Post Office building.

Buffalo has long been celebrated for the beauty of its private residences, which can be found in nearly every part of the city, especially on Main, North, Summer, Bryant and Ferry streets, and Delaware, Bouck, Linwood, Elmwood, Richmond and other avenues on the West Side, not to mention the delightful outlying resident districts of Highland and Central Parks, which are the most beautiful residence sections to be found anywhere; and Oakwood Place, a veritable little fairyland of well-kept and luxurious houses. The grounds bordering these streets and avenues are kept with great care, and the noble trees which line the walks of the principal thoroughfares add greatly to the beauty of the city.

NATURAL GAS.

Since 1886 natural gas, piped from Pennsylvania and Canada, has been very extensively used for fuel in the city. The convenience of gas over coal is so great that no one that has had a furnace, range or grate heated by it would willingly go back to the use of coal. In cost it is about the same as coal.

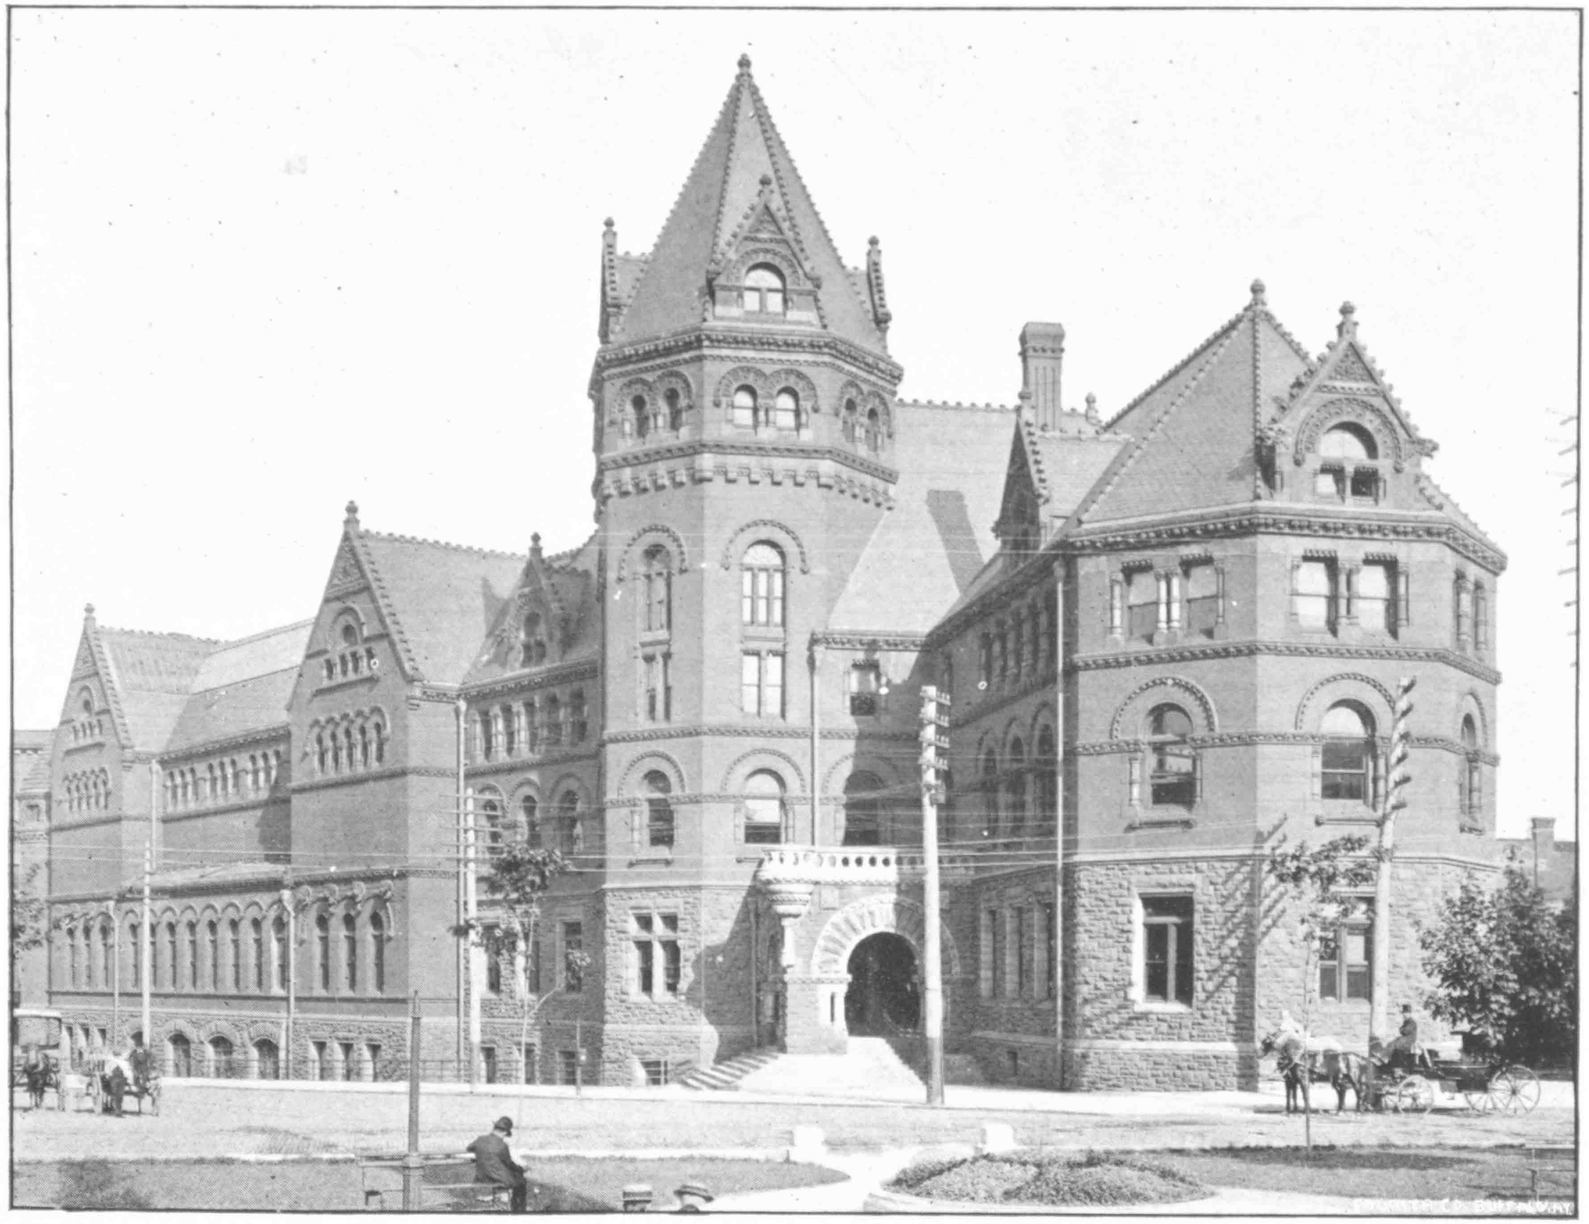
THE CITY PARKS.

Among the features of the city which attract residents of the most desirable class are its parks. Buffalo has a park on a scale sufficient to meet the demands of a large and rapidly growing population. The total area of the lands used is 939 acres, embracing the Lake, Meadow, Parade, Front, Masten Place, Prospect Place, Bennett Place, Lafayette Square, Bidwell Place, Chapin Place, Soldiers' Place, Agassiz Place, Humboldt,

Bidwell, Chapin and Lincoln Parkways, and Fillmore, Porter and Richmond Avenues. The parkways are from 1,904 to 11,097 feet in length, and the beds are of stone and gravel, rolled hard and smooth, and graded. They are 200 and 300 feet wide and the avenues 100 feet in width. Richmond Avenue, an approach, is paved with asphalt, 50 feet wide, a distance of 6,000 feet, at a cost of $112,000; and Fillmore Avenue, also an approach, is paved with asphalt a distance of 11,097 feet, at a cost of $174,491.18. The Park Lake takes up 46½ acres. The popularity of the place is attested by the crowds seen there on summer evenings. Besides this noble pleasure ground, the city has now under improvement a tract of some 300 acres in the southwest portion of the city, which will be a part of the main park system, and will be known as the South Park.

SCHOOLS.

Buffalo has 56 grammar schools, a State Normal School, a High School which will be relieved by another one now approaching completion, while the kindergartens and private schools rank among the best in the country.



PUBLIC LIBRARIES.

The city has various excellent public libraries, of which those unsectarian are the Buffalo Library, with a general collection, on Lafayette Square; the Grosvenor, of great value to students for reference, and the Law Library, in the City Hall.

CHURCHES.

There are more than 200 churches, chapels and missions in the city, the number being greater in proportion to population than in Brooklyn, which is celebrated as the City of Churches. The growth of certain denominations in membership is shown by statistics lately collected to be greater in Buffalo than in any other city of the United States.

The foregoing glance at Buffalo will show, it is believed, that it offers exceptional attractions to the industrious citizen who desires with his material prosperity other products of good citizenship. The city adds 20,000 souls to its population every year. It is hoped that the foregoing survey of its more desirable features will attract the kind of people who will aid in furthering the prosperity of the city, and every other good work which devolves on the public-spirited citizen.

BUFFALO

STREET AND AVENUE DIRECTORY.

EXPLANATION.

It will be noticed that in this Street Directory the names of the streets are set down in alphabetical order, giving the course which they run, according, as near as possible, to the points of the compass, and enumerating all streets which cross the same in the order in which they occur. The streets in the city were renumbered in 1868, and the following method was adopted, to wit: From the starting-point of the street, measuring along the line of the street, twenty feet; then making No. 1 to the right-hand side, and No. 2 to the left-hand side, and so on, each twenty feet, whether there be a building or a vacancy or a street crossing. The number on one corner has been given, so that a person wishing to find, say, 499 **Main Street,** on consulting the Street Directory, finds that the right-hand corner of Main and Mohawk is No. 487, consequently the place he seeks is only a few doors above.

ABBREVIATIONS.—N. for North; N. E. for Northeast; N. W. for Northwest; S. for South; S. E. for Southeast; S. W. for Southwest; E. for East; W. for West; Niag. for Niagara; Niag. STAMPED ENVELOPES.

Daily, many letters are dropped in the Postoffice unpaid, with revenue stamps and stamps cut from stamped envelopes affixed, which are held for postage; whereas by the use of stamped envelopes these letters would go forward without delay.

Persons purchasing envelopes can have printed on the left-hand corner, without additional charge, their names and Postoffice address, and a request to return it if unclaimed within a given time, when ordered in quantities of 500 and upwards of any specific denomination. The postage on stamped envelopes, spoiled in directing, will be refunded in stamps, on application at stamp office, provided they have never been sent by mail, and that the misdirection actually occurred at the place where the redemption is claimed; also, provided that such envelopes be presented in substantially a whole condition.

Prices at which stamped envelopes and newspaper wrappers are sold to the public:

In quantities of 1,000:

Two cent, note size, 1st quality	$21.60
Two cent, letter size, 1st quality	21.80
Two cent, extra letter size, 1st quality	22.00
One cent, newspaper wrappers	11.00

Domestic postal cards, one cent.

International postal cards, two cents.

RATES OF POSTAGE TO CANADA.

The Dominion of Canada embraces all the British North American Provinces, except Newfoundland.

Letters and Postal Cards—Same rates and conditions of prepayment of postage as for domestic letters and postal cards.

Articles of every kind or nature which are admitted to the domestic mails of either country, will be admitted under the same conditions to the mails exchanged between the two countries; except that articles other than letters in their usual and ordinary form are excluded from the mails, unless they are so wrapped or inclosed as to permit their contents to be easily examined by Postmasters of customs officers; and except also the following articles, the transmission of which is absolutely prohibited under any circumstances, viz.:

Sealed packages, which from their form and general appearances, evidently are not letters and are not wrapped or inclosed as above required; Police Gazettes and other publications which violate the copyright laws of the country of destination; packets, except single volumes of printed books, which exceed four pounds six ounces in weight; poisons, explosive or inflammable substances, live or dead (not dried) animals, insects and reptiles; except queen-bees, and their attendant bees, fruits and vegetables which quickly decompose, and substances which exhale a bad odor; lottery tickets or circulars, all obscene or immoral articles, and other articles which may destroy or damage the mails, or injure persons handling them.

Articles other than letters, in their usual and ordinary form, on their arrival.

Samples of merchandise (bona fide trade samples only).

Packages of samples of merchandise for dispatch in the mails to foreign countries are restricted to bona fide trade samples or specimens having no salable or commercial value in excess of that actually necessary for their use as samples or specimens. Goods sent for sale, in execution of an order, or as gifts, however small the quantity may be, are not admissible at sample rates and conditions.

This does not apply to Canada or the United States Postal Agency at Shanghai, China, or articles forwarded by Parcels Post.

Mexico and Canada have same rates for letters and papers as the United States.

In sending merchandise consult postoffice officials.

FORWARDING LETTERS AND POSTAL CARDS.

The law provides that prepaid letters and postal cards shall be forwarded from one postoffice to another, at the request of the party addressed, without additional postage. A letter or postal card that has been delivered to an authorized person, and by him redirected to another postoffice, can be forwarded to its new address without prepayment of additional letter postage.

Newspapers, periodicals, and miscellaneous mailable matter can now be remailed or forwarded by prepayment of original postage.

ADVERTISED LETTERS.

Letters after remaining in this office one week are advertised. Such letters can only be obtained by calling for them as advertised letters, giving the date of the list and paying one cent for advertising. If not claimed within two weeks thereafter they are sent to the Dead-letter Office.

LETTERS NOT ADVERTISED.

The following classes of letters are not advertised: Drop letters; letters bearing requests to be returned to writers if unclaimed; box letters; letters directed and sent to hotels, and then returned to the postoffice as unclaimed—being for strangers; letters marked "To be held until called for," or poste restante.

CLASSIFICATION OF MAIL MATTER FIRST-CLASS MATTER.

The following articles are among those subject to first-class rate of postage:—Autograph albums, containing writing; bank books, with written entries; bank checks filled out in writing, whether cancelled or not; written visiting cards; "old letters," whether sent singly or in bulk; stenographic or shorthand

notes; diplomas, marriage, insurance, or other certificates, filled out in writing; manuscript copy, when not accompanied with printed proof-sheets; type-written matter. and manifold copies of the same; drawings and plans, containing written words, letters, or figures indicating size, price, dimensions, etc; envelopes bearing written addresses; remailed postal cards wholly or partly in writing; printed assessment notices with amount due written or stamped in; printed price-lists, containing written figures; printed receipts with written signature; printed blank forms, filled out in writing; printed cards bearing a written date, where the date is not the date of the card, but gives information as to when the sender will call, or will deliever something mentioned in the printed part of the card, or is the date upon which something is acknowledged to have been received; indented or perforated sheets of paper, containing characters which can be read by the blind, when they contain actual, personal correspondence.

THIRD-CLASS MATTER.

The following articles, when printed upon paper, and containing no writing, are third-class matter—1c for each 2oz—Almanacs; printed legal and insurance blanks; blue prints, printed books; canvasing and prospectus books with printed sample chapters, blank check books and receipt books; printed cards; circulars, catalogues, and assessment notices wholly in print; Christmas and Easter cards; school copy books with printed lines and instructions for use; matter reproduced by the cyclostyle, hectograph, mimeograph, electric pen, or other similar process easy of recognition; engravings and wood cuts; printed labels; lithographs; printed maps (on paper); music books, and sheets of music; printed blank notes; photographs; printed plans and architectural designs; postage stamps, cancelled or uncancelled; postal cards bearing printed price advertisements, mailed singly or in bulk, price-lists wholly in print; printed proof-sheets, with or without manuscript; printed tags; printed calendars; U. S. Treasury notes; printed valentines; press clippings, with name and date of paper stamped in; indented or perforated sheets of paper, containing characters which can be read by the blind, when not in the nature of personal correspondence.

Seeds, bulbs, roots, scions, and plants are, by Act of July 24, 1888, also mailable at the third-class rate of postage. Under this head are included samples of wheat or other grain in its natural condition; seedling potatoes, beans, peas, chestnuts and acorns. Not, however, samples of flour, rolled oats, pearled barley, or other cereals which can only be used as articles of food; or cut flowers, dried plants, and botanical specimens; or foreign nuts and seeds (such as the coffee bean) used exclusively as articles of food, all of which are subject to postage at the fourth-class rate.

FOURTH-CLASS MATTER.

Under the head of fourth-class matter are included the following articles: 1c for each ounce—Aritficial flowers; photograph albums; blank autograph albums; blank books with printed headings; billheads and letter-heads; blank books, blotters, printed or unprinted; coin; blank cards; printed playing cards; Christmas and Easter cards, printed on other material than paper; samples of cloth; cut flowers; dried plants; botanical and geological specimens; blank diaries; envelopes, printed or unprinted; samples of flour, or other manufactured grain for food purposes; blank address tags or labels; dissected maps and pictures; proprietary medicines in original packages, metals; minerals; paper pags and wrapping paper, printed or unprinted; crayon pictures, oil or water-color paintings, pen or pencil plans or drawings, if they contain no written words, letters, or figures giving size, dimensions, distance, price, etc.; blank postal cards in bulk packages; printed dress charts, and printed patterns, stationery; samples of merchandise; wooden rulers, containing printed advertisements; wall paper; queen bees, when properly packed; dried fruit; framed engravings, drawings, or paintings; maps printed upon cloth; calendars, or other matter printed upon celluloid; paper napkins, photographs retouched with India ink or water colors; tin types; daguerrotypes, electrotype plates; and, in general, all articles not included in the other three classes of mail matter.

Newspaper and regular publications entered as second-class matter, 1c per 4oz when sent by other than publishers.

RATES OF POSTAGE.

First Class—Letters and all other written matter, whether sealed or unsealed, and all other matter sealed, mailed, sewed, tied, or fastened in any manner, so that it cannot be easily examined, two cents per ounce or fraction thereof. Postal cards one cent each. Postal cards are unmailable with any writing or printing on the address side, except the directions, or with anything attached to them.

On local or drop letters, at offices where free delivery by carrier is established, two cents for each ounce or fraction thereof.

Second Class—Matter of this class shall contain no writing. print or sign thereon, or hire in addition to the original print, except the name and address of the person to whom the matter shall be sent, index figures of subscription book, either printed or written (which figures may indicate the number of copies sent), the printed title of the publication and the place where it is published, the printed or written name and address of the publisher or sender, or both, indicating the date on which the subscription to the matter will end, the correction of any typographical error, a mark (except by written or printed words) to designate a word or passage to which it is

desired to call attention, the words 'Sample Copy," when the matter is sent is such, and the words, "Marked Copy," when the matter contains a marked item or article. And publishers or news agents may inclose in their publications bills, receipts, or orders for subscription thereto; but the same shall be in such form as to convey no other information than the name, place or subscription price of the publication to which they refer, and the subscription due thereon. This matter when sent by publishers 1c per pound—when sent by other persons 1c for each 4oz.

Third Class 1c for 2oz—On matter of this class, or on its wrapper or envelope, or on a tag or label attached, the sender may either write or print his own name, occupation and residence and business address, preceded by the word "from," and may make marks (other than by written or printed words) to call attention to any word or passage in the text, and may correct any typographical errors. There may also be placed upon the blank leaves or cover of any book or other matter of this class a simple manuscript dedication or inscription not in the nature of personal correspondence.

There also may be placed upon the envelope, wrapper, tag, or label of matter of this class any printing that is not in its character, unmailable as third class matter, provided there be kept sufficient space for a legible superscription and the necessary postage stamps.

Fourth Class—Merchandise, 1c per ounce. With matter of this class properly prepaid as such, the sender may inclose third-class matter; and he may write or print upon the cover, wrapper or label, thereof his name, occupation, residence or business address, preceded by the word "from," and any marks, numbers, names or letters for purpose of description. He may also print upon the same anything that is not unmailable as printed matter, and that is not in the nature of personal correspondence, provided there be left sufficient space for a legible superscription and the necessary postage stamps.

The rate of postage on newspapers and periodical publications of the second class, when sent by other than the publisher or news agent, is one cent for each four ounces or fractional part thereof.

POSTAL CARDS.

The postage of one cent each is paid by the stamp impressed on these cards, and no further payment is required. The addresses may be either written, printed or affixed thereto, at the option of the sender. Any mutilation of a postal card, whether by reduction in size or otherwise, renders it unmailable as such. So, also, does the attaching of anything except a simple address label to a postal card. All such cards, whether they contain writing or not, are mailable upon payment of one cent additional postage.

POSTAL RULES.

A subscriber cannot re-mail his paper to another without prepayment of postage at transient rates.

Postmasters cannot deliver from their respective offices letters addressed and deliverable from their offices, except in case of letters addressed to discontinued offices nearest the offices where such letters are held for delivery.

Money should not be inclosed in an ordinary letter.

Valuable letters should be carried to the Postoffice and registered. If money is to be remitted, a Postal Order should be obtained. Money and other valuables sent by mail are at the owner's risk.

Head latters with the name of the writer's Postoffice and State, street and number. Sign them with full name and request that answers be directed accordingly.

It is the duty of the Postmaster at the mailing office, as well as at the office of delivery, to carefully examine all printed matter, to see that it is charged with the proper amount of postage, and to detect fraud.

When publishers inclose hand-bills with their newspapers in violation of the law, the Postmaster is required to rate up such packages with letter postage, according to the weight of the same, and, if not paid by the party addressed to, return them to the mailing office to prosecute the sender in the penalty of $5 in each case.

No extra postage charge is to be made for a card printed or impressed upon an envelope or wrapper. The Postoffice Department prints name and address of sender free upon stamped envelopes.

The law limits the weight of packages to be sent by mail to four pounds, except single books. Second-class matter is not subject to the four-pound limitation. Admissible liquids are limited to four-ounce liquid measure.

The person entitled to receive letters by mail are those whose name are in the address, and delivery should be to the person addressed, or according to his or her order.

Letters addressed to a party deceased can only be delivered to his legal representatives. Letters addressed to a firm may be delivered to any member thereof.

Drop letters can only be forwarded upon the prepayment of one full rate of postage.

THE FOLLOWING ARTICLES ARE UNMAILABLE.

Letters which cannot be forwarded to their destination by reason of illegible or unintelligible superscription.

Letters upon which one full rate of postage has not been prepaid, and those covered by revenue stamps, by stamps previously used, or by stamps cut from stamped envelopes and packages which exceed four pounds in weight.

Letters to Europe and other foreign countries belonging to the International Postal Union, which contain gold and silver, money, jewels or precious articles, or any article liable to custom duty.

All letters upon the envelope of which, or postal card upon which obscene, scurrilous, or abusive epithets have been written or printed, or disloyal devices printed or engraved, and letters or circulars concerning illegal lotteries, so-called gift concerns, or other similar enterprises offering prizes or concerning schemes devised and intended to deceive and defraud the public. Also, all obscene, lewd or lascivious books, pamphlets, pictures, papers, prints or other publications of indecent character.

And all matter otherwise mailable by law upon the envelope of outside cover or wrapper of which, or postal card, upon which indecent, lewd, lascivious, obscene, libelous, scurrilous, or threatening delineations, epithets, terms, or language, or reflecting injuriously upon the character or conduct of another, may be written or printed, are hereby declared to be non-mailable matter, and shall not be conveyed in the mails, nor delivered from any post-office, nor by the letter-carrier; and any person who shall knowingly deposit, or cause to be deposited, for mailing or delivery, anything declared by this section to be non-mailable matter, and any person who shall knowingly take the same or cause the same to be taken from the mails for the purpose of circulating or disposing of, or of aiding in the circulation or disposition of the same, shall be deemed guilty of a misdemeanor, and shall, for each and every offense, be fined not less than one hundred dollars, nor more than five thousand dollars, or imprisonment at hard labor not less than one year nor more than 10 years, or both, at the discretion of the court.

Postmasters are notified that under this act such matter will be treated precisely as obscene matter is treated under the provisions of section 380, Postal Laws and Regulations. Any postal card, or any other matter upon the envelope or outside cover of which appears anything which reflects injuriously upon the person addressed, or any one else, or upon his character or conduct, or is plainly calculated and intended to injure his feelings or reputation, or bring him into discredit, or threaten him, will be excluded. Anything in the nature of an offensive or threatening dun apparent upon an envelope, outside cover or postal card, or conveying the suggestion that such dun is inclosed, will be excluded as non-mailable under this act. The attention of Postmasters is called in this connection, to sections 381 and 527 of the Postal Laws and Regulations as applicable. (See April Guide, 1892.) As to mailability, the Postmaster if he deems any case doubtful will submit it to the department for decision.

The following from their harmful nature are forbidden to be in the mails. Poisons, explosive or inflammable articles, live or dead (and not stuffed) animals, insects or reptiles (except as specified in Paragraph 8, Ruling 125), fruits or vegetable matter liable to decomposition, comb honey, guano, or any article exhaling a bad odor; vinous, spirituous and malt liquors, and liquids liable to explosion, spontaneous combustion or ignition by shock or jar (such as kerosene oil, naptha, benzine, turpentine and other liquids of like character). Disease germs, discharges of any kind from diseased persons, or other things of this character, no matter how securely put up. (Order Postmaster-General, June 1, 1893.) Sharp-pointed instruments or any other matter liable to deface or destroy the contents of the mail, or injure the person of any one connected with the service.

Buffalo Law School—933 Ellicott Square. Department of Law of the University of Buffalo.

Organized June, 1887, under the auspices of the Judiciary and the Bar of the City of Buffalo. The faculty and lecturers upon special topics are either judges now upon the bench, or lawyers in active practice, who will bring to the discharge of their duties ripe experience, made more valuable by their constant engagement in the decision and trial of the many new questions of law which rise in the practice of their profession.

The Buffalo Law School was organized in the spring of 1887, by Hon. Charles Daniels, Hon. Charles Beckwith, and others of the most prominent members of the Buffalo Bench and Bar.

The advantages of the School are great; its power as an educational factor is recognized and approved by the leading educators of the State. Students taking their course of instruction in this department will receive the degree of Bachelor of Law from the University of Buffalo.

The course of instruction to be followed will occupy two years' time. Each year will be divided into two terms of seventeen weeks each, beginning the last week in September and closing the last week in May.

The situation of the School at the City of Buffalo is a peculiarly favorable one. During most of the college year three Courts of General Jurisdiction are in session, in which the trial of important cases often by distinguished council are constantly in progress.

Special terms of the Supreme Court are held daily, at which judges sit to hear and determine questions touching almost every branch of the law. Terms of the United States Courts are also held in the United States Court rooms.

Students will thus have the opportunity to observe the trial of causes before judges and juries, and to hear the argument of legal questions in appellate courts.

All communications should be addressed to E. Corning Townsend, Secretary and Treasurer, 37 White Building.

The Society has records of the condition of over 14,000 poor families in Buffalo. Its records are secret, but information will be gladly given to responsible persons. For its own work the Society divides the city into five districts, with the following chairmen and agents:

First District—Chairman, William Hammond; agents, Susan Vallier, Mrs. Alice S. Hartman.

Second District—Chairman, Thomas Cary; agent, Adam Meister.

Third District — Chairman, George Wing; agent, Alice O. Moore.

Fourth District—Chairman, Arthur H. Williams; agent, Mrs. Susan Bradnack.

Fifth District — Chairman, Newcomb Carleton; agent, Frank Kwicikowski.
Out-door Agent—E. G. Burns.

Men who apply for aid at the door or on the street should be sent to the office at 287 Pearl Street, which is open until 9:30 P. M. The Society furnishes tickets for meals and lodgings which it will be glad to send to any address. Work is required from able-bodied men in return for what is given them.

The Society operates various workyards in the winter, and has free employment bureaus at both its offices and at the Creche, where plain labor, either male or female, can be obtained.

The Charity Organization Society also operates the Fitch Creche, the Fitch Accident Hospital, the Fitch Provident Dispensary, the Penny Savings Funds, and a Training School for Domestics, and expects to open this year a Laundry and Laundry School.

The Church Districts—The Charity Organization Society has divided the city into about 100 districts, and over 70 of these have been accepted by churches or societies. A church which takes a district accepts a special responsibility for the wants of that district, and persons in need of help should be referred to it. At either office of the Charity Organization Society will be found a map showing the different districts with the names of the churches which have taken them.

Agent for Wagner & Sandford, New York, Billiard and Pool Tables

WITH NEW FAST CUSHIONS.

My business is to buy and sell everything pertaining to a Billiard Table, either new or second-hand. I will pay a reasonable price if you have a second-hand Pool or Billiard Table for sale, and I will sell a new or second-hand table for cash or on installments, at a price to meet outside competition. If you have any kind of repairs to be done, balls to color, tables to cover, rubber to change, come or write to me and you will receive prompt attention. I have had a practical experience of 20 years and am fully qualified to look after every detail of such work and my prices will be found lower than all others.

Offices Throughout the Civilized World

EXECUTIVE OFFICES:

Nos. 279, 281 and 283 Broadway,

New York City, U. S. A.

One Interest. One Organization. One Management.

THE BRADSTREET COMPANY gathers information that reflects the condition and controlling circumstances of every seeker of mercantile credit. Its business may be defined as: "Of the merchants, by the merchants, for the merchants." In procuring, verifying and promulgating its information, no effort is spared, and no reasonable expense considered too great that the results may justify its claim as an authority on all matters affecting commercial affairs and mercantile credit. Its ramifications are greater, and its business larger, than those of any similar organization in the world conducted in one interest and under one management. Its offices and connections have been steadily extended, both on this and other continents, and it furnishes information concerning mercantile persons throughout the civilized world.

Subscriptions are based on the service furnished, and are available only by reputable wholesale, jobbing and manufacturing concerns, and by responsible and worthy financial, fiduciary and business corporations. Specific terms may be obtained by addressing any of the Bradstreet offices.

CORRESPONDENCE INVITED.

BRADSTREET'S

A Weekly Newspaper for Business Men and Financiers. Quoted Throughout the World for its Accuracy.

Deals with matters of live interest in the world of trade, finance, commerce and public economy. The facilities for gathering and presenting facts of value to the merchant, financier and publicist are exceptional and universal, and it is conceded to be without a peer in its field of work.

It is issued every Saturday, and goes to the better class of business and professional men of this country, and it is also widely read throughout Europe. It reaches every civilized region on the globe, thus giving its advertisers a most extensive and desirable publicity. It has a larger and choicer paid subscription list than any similar periodical in the world.

The Courier Company is the Largest Show, Job and Lithographic Printing House in the World

WE are prepared to execute orders for all kinds of Printing, Binding, Engraving, Electrotyping and Lithographing. Our facilities are particularly adapted to the requirements of large jobs, especially those demanding a fine class of illustrations. We make cuts by all the popular and improved processes, and endeavor to excel in this branch of the fine arts. It is particularly desired that we have the favor of your small orders, as careful attention is given all classes of work, both large and small. Our intention is to always serve you well and promptly; and the large business developed under our management is the best evidence we can offer of the success of our efforts
